

Vocational Course on Communication in Professional World

The **objective** of this 2-semester course is to equip university students with essential communication, professional, and IT skills for personal and career success.

Instructor Qualification: Post Graduation in Computer Applications with 3 Years of experience working in Industry

Payout: 20,000-50,000 INR monthly on successful completion of this course

Why should you opt for this course?

- 1. Conflict management:** Developing skills to effectively manage conflicts in the workplace can lead to better working relationships, increased productivity, and a positive work environment.
- 2. Personal effectiveness:** This course helps individuals enhance their personal effectiveness by improving self-awareness, goal-setting, and prioritisation skills, leading to increased efficiency and success in both personal and professional endeavours.
- 3. Stress management:** Learning techniques to manage and cope with stress can improve overall well-being, increase resilience, and enhance productivity in the workplace.
- 4. Time management:** Developing strong time management skills allows individuals to prioritise tasks, meet deadlines, and achieve a better work-life balance, resulting in increased productivity and reduced stress levels.
- 5. Analytical skills and problem-solving:** Building analytical and problem-solving skills equips individuals with the ability to identify and tackle complex challenges in the workplace, leading to improved decision-making and innovative solutions.
- 6. Counselling:** The counselling module provides individuals with the skills to provide guidance and support to others in the workplace, fostering a positive and supportive environment and enhancing team dynamics.
- 7. Professional etiquettes:** Understanding and practising professional etiquettes helps individuals build a positive and respectful professional image, improving relationships with colleagues, clients, and superiors.
- 8. Professional ethics:** Learning about professional ethics helps individuals make principled and ethical decisions in the workplace, fostering integrity, trust, and a positive reputation.
- 9. Professional interaction:** Developing effective professional interaction skills enables individuals to communicate assertively, resolve conflicts, and build strong relationships with colleagues and superiors.
- 10. Enhanced workplace dynamics:** By acquiring advanced soft skills, individuals can contribute to creating a harmonious and collaborative work environment, enhancing teamwork, productivity, and job satisfaction.
- 11. Career advancement:** Soft skills are highly valued by employers across industries. This course equips individuals with a range of valuable skills that can enhance their career prospects and open up opportunities for advancement.
- 12. Increased employability:** Employers often seek candidates with strong soft skills. By completing this course, individuals can differentiate themselves in the job market and increase their employability, as soft skills are highly transferable across various roles and industries.
- 13. Personal growth:** The program provides individuals with opportunities for personal growth and self-improvement, enabling them to become more confident, adaptable, and effective professionals.
- 14. Adaptability to change:** Soft skills such as personal effectiveness, stress management, and problem-solving equip individuals with the ability to navigate and adapt to changes in the workplace, making them valuable assets in dynamic and evolving environments.
- 15. Overall success and well-being:** Developing a comprehensive set of soft skills empowers individuals to thrive both professionally and personally, leading to greater success, job satisfaction, and overall well-being.

Who is this course for?

- 1. Psychology and Counselling:** Students in psychology or counselling programs can benefit from the interpersonal skills, conflict management, and counselling modules of this course to enhance their ability to connect with clients, resolve conflicts, and provide effective guidance.
- 2. Fine Arts and Creative Fields:** Students pursuing degrees in fine arts, design, or creative disciplines can benefit from this course to improve their presentation skills, networking abilities, and professional interaction, enabling them to showcase their work and establish meaningful connections in the industry.
- 3. Social Work and Community Development:** Students studying social work or community development can benefit from the course's emphasis on interpersonal skills, counselling, and conflict management, equipping them with the necessary tools to engage with diverse populations and address social issues effectively.
- 4. Environmental Science and Sustainability:** Students in environmental science or sustainability programs can benefit from this course to improve their communication and presentation skills, enabling them to effectively convey their research findings, engage stakeholders, and advocate for environmental causes.
- 5. Sports Management and Recreation:** Students pursuing degrees in sports management or recreation can benefit from the course's emphasis on communication, networking, and conflict management skills, helping them excel in managing teams, coordinating events, and engaging with athletes and stakeholders.
- 6. Fashion and Apparel Design:** Students in fashion and apparel design programs can benefit from the course's modules on professional etiquette, networking, and presentation skills, enhancing their ability to communicate their creative vision, establish industry connections, and succeed in the competitive fashion industry.
- 7. Linguistics and Language Studies:** Students studying linguistics or language studies can benefit from the course's focus on phonetics, verbal communication, and email etiquette, improving their understanding of language structures and enhancing their overall communication skills.
- 8. Political Science and International Relations:** Students in political science or international relations programs can benefit from the course's modules on public speaking, networking, and intercultural communication, enabling them to effectively articulate their ideas, engage in diplomatic discussions, and build international connections.
- 9. Architecture and Urban Planning:** Students pursuing degrees in architecture or urban planning can benefit from this course to develop their presentation skills, professional etiquette, and interpersonal skills, which are essential for engaging with clients, collaborating with teams, and communicating design concepts effectively.
- 10. Film and Media Production/Journalism:** Students in film and media production or Journalism programs can benefit from the course's modules on public speaking, networking, and professional interaction, equipping them with the skills to pitch ideas, collaborate with industry professionals, and excel in their creative endeavours.
- 11. Technical Field:** Students studying engineering or pursuing any technical degree can benefit from this course by developing their communication and presentation skills. Effective communication is essential for conveying complex technical information, collaborating with colleagues, and presenting findings to stakeholders.
- 12. Medical Disciplines:**
 1. Medicine: Medical students can benefit from the course's emphasis on effective communication, interpersonal skills, and counselling. These skills are vital for building trust and rapport with patients, collaborating with healthcare teams, and providing empathetic patient care.
 2. Nursing: Students in nursing programs can benefit from this course by enhancing their communication skills, particularly in patient interactions, teamwork, and professional etiquette. Effective communication is crucial for providing quality nursing care and promoting positive patient outcomes.
 3. Pharmacy: Students studying pharmacy can benefit from the course's focus on professional ethics, interpersonal skills, and patient counselling. These skills are essential for effectively communicating medication information, counselling patients on proper usage, and ensuring patient safety.
 4. Allied Health Professions: Students pursuing degrees in allied health professions, such as physical therapy, occupational therapy etc. can benefit from this course's emphasis on interpersonal skills, time management, and professional interaction. These skills are important for effective patient care, interdisciplinary

collaboration, and maintaining professionalism in healthcare settings.

These are just a few examples. **Overall, graduates and university students from various disciplines can benefit from this course to enhance their communication skills, personal development, regardless of their specific field of study or future career aspirations.**
