University's Hobby Club Council

Introduction

University Hobby Club Council

AATMODAY encourages the holistic development of the students by coordinating and promoting a variety of educational, recreational, social, cultural and entertainment programs.

With an objective of helping students to pursue their hobbies and interests and to bring people together, the student clubs are created at the university.

As a club member one knows about oneself, one's interests and goals. Students can reveal their strengths like multitasking, organization skills, team building skills and leadership skills. They can add skills to their repertoire. The clubs also help in pursuing an old hobby. Networking opportunities being a major benefit, club members develop bonds among themselves which help in growing their careers. Association of students with clubs help in showcasing one's domain interest, balance between work and hobbies. Activities organized/participated as a club member looks good on the resume. Intellectual innovation, social engagement, and universal sustainability demand the

Students to groom their diverse values, communication skills and hidden talents. These diverse values would complement the academic and co-curricular streams of the university. Hence, club activities play a pivotal role in transforming students' passion and hobbies into socially desirable skills for the present global demands. With more self-efficiency, students would get an opportunity to enhance their performance and skills in diverse social scenarios.
