TWO-DAY MENTZA AWARENESS AND TRAINING PROGRAM (26.08.2025 - 27.08.2025)

The two day Mentza App Awareness Programme was successfully conducted on 26th and 27th of August 2025. This event was targeted for the students to make them familiarise with the academic session 2025-26 with the Mentza platform, this will highlight the utility in improving professional communication skills and career networking. The platform was organised on a schedule circulated advance department wise and sessions were held in specific seminar and lecture halls on the campus.

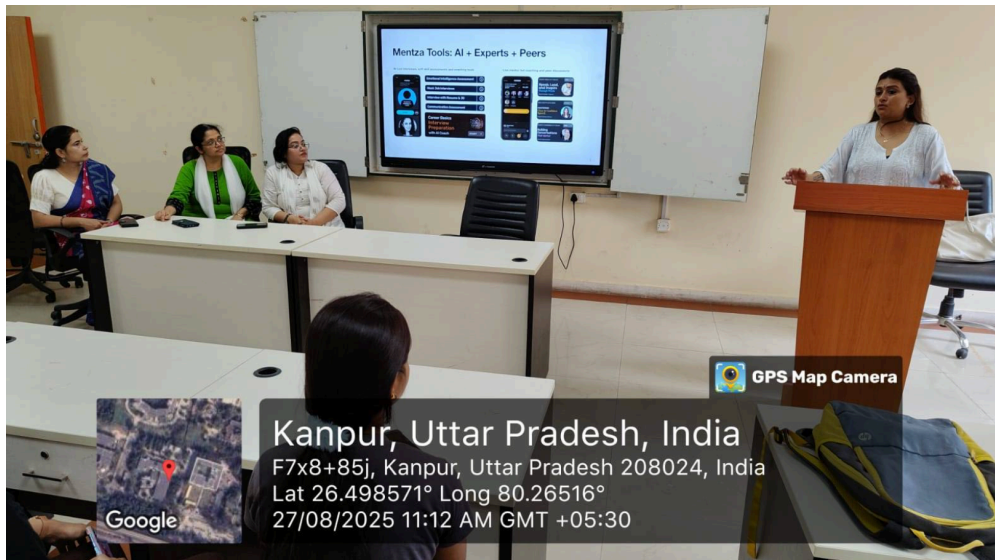

We are delighted to state that the event attracted good participation, reflecting the efficient collaboration of the Mentza team, institutional leadership, and the departmental coordinators. The proactive involvement of all Directors and Heads of Departments in facilitating necessary logistics and persuading students to attend in large numbers helped create a conducive learning environment.

At the basic level, however, it was the relentless efforts of Faculty and Student Placement Coordinators that saw this program through with flying colours. They worked in close pair with Mr. Saurabh Gupta, the Training and Placement Officer, to ensure a near complete registration before the event and then managed the on ground proceedings for the day to ensure punctuality and active participation. The sessions were well received by attendees, showing a keen interest in the features of the platform and its possible applications to advance their careers. The spirit of collaboration displayed by all stakeholders ensured that the program succeeded in its twin goals of raising awareness and driving registration. We suggest that more and more such industry-relevant training programs be approved for our students in order to keep them competitive on a sustained basis. A detailed study of participant feedback and registration numbers are attached for perusal.
