Department of Economics

OUR MISSION AND VISION

The Department of Economics under the school of Arts, Humanities and Social Science at present is offering three year B.A (Honours in Economics) program. The department has eminent and skilled faculty members to train the students in

accordance with the need of the job market and the focus is mainly on state of Art training, teaching and research.

B.A (Honours in Economics) programme is designed with an objective to encourage the students to think critically and strategically by using the principles of economics. Our aim is to generate an appreciation of economic dimensions extending to social, political, environmental, and international issues. Eventually this program will ensure that the students have the desired skill and knowledge to face the real-world challenges and help them to seek job opportunities in various fields.

LEARNING OUTCOME-BASED APPROACH

The department of economics provides a firm basis for much of the advanced thinking in the discipline of economics. It provides the students with a logical paradigm for modelling and interpreting the behaviour and interactions of households, firms, and government institutions.

The honours programme is consistent with global standards in the Economics discipline. It offers opportunities that is comparable to the training given to

the undergraduate students in any other standard university in India.

Our curriculum allows students to choose elective courses from a set of courses with contemporary relevance, thereby offering them the flexibility to prepare for careers in academia, law, management, journalism, government, and many other fields.

COURSE OUTCOME:

Upon completion of this programme, a student will have the necessary skills to understand and analyse in a logical manner all major economic phenomena. Our aim is to make the students develop the ability to analyse government's policies and regulations. They will know how an economy functions and how decisions are made by consumers, producers, and the regulators.

Students will also build the necessary skills to identify, analyse, and solve problems in a logical and efficient manner.

QUALIFICATION DESCRIPTION

Upon successfully completing the programme, a student will be awarded the degree of B.A. (Honours in Economics).

COURSE OBJECTIVES

The programme aims to:

1. Train students in basic economic theory;
2. Equip students with the mathematical and statistical techniques necessary for a proper understanding of the discipline;
3. Discuss real world economic issues and problems facing the country and the world;
4. Enable students to understand proper policy responses to economic problems;
5. Train students to collect primary data and learn sampling techniques;
6. Train students to use statistical and econometric methods to arrive at conclusions regarding the validity of economic theories;
