## Indo-Egyptian Webposium On Covid Reality: Cost of Human Lives and Economy of the World

The COVID-19 pandemic has resulted in over 4.3 million confirmed cases and over 2,90,000 deaths globally. It has also sparked fears of an impending economic crisis and recession. Social distancing, self-isolation and travel restrictions forced a decrease in the workforce across all economic sectors and caused many jobs to be lost. Schools have closed down, and the need of commodities and manufactured products has decreased. In contrast, the need for medical supplies has significantly increased. The food sector has also seen a great demand due to panic-buying and stockpiling of food products. In an attempt to understand the turmoil effect on the human lives and economy, the Indo-Egyptian Webposium was conducted.

Hon'ble Vice Chancellor, CSJM University, [Prof. Neelima Gupta](#) gave inaugural address and welcomed all the distinguished guests.

She talked about the changes in the society due to COVID-19 pandemic. She discussed about pathogenesis variations observed for Sars-Cov-2 in different countries. The measures to cope up with this disease. Efficient measures to tackle the disease varies among different countries based upon susceptibility of their population. Elderly people and people with existing comorbidities are more prone for getting infected with serious consequences. She also discussed about

role of Ayurveda like yoga and breathing exercises can boost up the immunity. CSJMU has taken up medical counselling, online yoga classes are been conducted, NSS units are actively engaged and International guest house of the University has been given for passive quarantine and University has also contributed to PM and CM's fund to tackle this pandemic. She emphasized that economic losses and human lives need top priority.

Hon'ble Dep. Chief Minister & Minister, Higher Education, Govt. of UP

**Dr. Dinesh Sharma** emphasized on primary sectors which include industries involved in the extraction of raw materials, secondary sectors involved in the production of finished products and tertiary sectors to include all service provision industries.

He talked about a global crash in demand from hotels and restaurants has seen prices of agricultural commodities drop by 20%. Viral outbreak already dampening the demand for oil, motor vehicle, leather, cloths etc., this industrial product-price war are predicted to have grave implications for the global economy.

Furthermore, any increase to consumer activity is likely to be outweighed by damage caused to populations reliant on revenue from other forms of industrial products

He talked that COVID-19 has also affected all levels of the education system from pre-school to tertiary education. Some of these impacts include on nutrition due to the lack of free school meals provided in many countries to children from low-income families, social isolation, dropout rates with students less likely to return once closures are ended, and an impact on childcare costs for families with younger children. Additionally, there exists a wide disparity amongst populations with higher-income families able to access technology that can ensure education continues digitally as of social isolation.

Due to COVID-19 communities, businesses and organizations are impacted globally, inadvertently affecting the financial markets and the global economy.

**Health:** Individual, family, and interpersonal coping with the COVID-19 emergency; risk factors of psychological distress at the individual, family, interpersonal and cultural level (e.g., activity restriction; mental disorders; family characteristics; social support, etc.). Clinical emergency protocols to manage mental health problems, evidence-based suggestions and indications to governments and policymakers.

**Environment:** Due to the coronavirus outbreak's impact on travel and industry, many regions experienced a drop in air pollution. The water in the canals cleared and experienced greater water flow and visibility of fish and the increase in water clarity was due to the settling of sediment that is disturbed by boat traffic and mentioned the decrease in air pollution along the waterways. Demand for fish and fish prices have both decreased due to the pandemic, and fishing fleets around the world sit mostly idle.

**Social Burden:** COVID-19 outbreak affects all segments of the population and is particularly detrimental to members of those social groups in the most vulnerable situations, continues to affect populations, including people living in

poverty situations, older persons, persons with disabilities, youth, and indigenous peoples. He talked about job opportunities for people of Uttar Pradesh after many multinational companies can opt UP as their choice state.

**Professor G. C. Tripathi**- Chairman, Higher Education Council, Uttar Pradesh talked about the social challenges and different options in this scenario. He talked about challenges for education system and about mortality in COVID times.

**Prof. N. C. Gautam**, Vice Chancellor, Mahatma Gandhi Chitrakoot Gramodaya Vishwavidyalaya, Chitrakoot, MP emphasized on Human life and priority over health and life in this pandemic. If human life is saved, it can lead to development and social improvements.

**Prof. Said I. Shalaby**, Vice President, Academy of Scientific Research, & Technology, Cairo, Egypt discussed about therapeutic aspects of COVID-19. He suggested that different treatments are required for the patients depending upon symptoms and severity of infection. He discussed about therapeutic role of Remdesivir for treatment of COVID-19 infections.

**Prof. Dr. Maha Saber**, Professor of Pediatrics and Consultant of Nutrition, Head of Complementary Medicine Department, National Research Centre, Cairo, Egypt talked about importance of nutrition for healthy body and efficient immune system. She suggested the usage of natural sources are beneficial over supplements and recommended the vegetables, fruits and products rich in zinc, minerals and vitamins for prevention of COVID-19.

**Prof. Sandeep K. Malhotra**, Parasitology Laboratory, Department of Zoology University of Allahabad, Prayagraj talked about impact of Covid-19 on environmental aspects. He discussed about the control measures and impact on global quality of river water and other environmental aspects of COVID-19.

**Prof. Dr. Mahmoud Bahgat**, Molecular & Immunological Infection Research, Head- Science & Technology Cooperation Centre (ASRT) & Central Laboratories Network & Centres for Excellence, National Research Centre, Cairo, Egypt discussed about global measures for control of this devastating disease. He gave suggestions to people post COVID-19.
