

## MAKE CITIES AND HUMAN SETTLEMENTS INCLUSIVE, SAFE, RESILIENT AND SUSTAINABLE.

---

### Relevance

---

Engaging the local community development through philanthropic activities, investing in initiatives that uplift and empower the surrounding communities. CSJM University also prioritizes providing safe and affordable on-campus housing or supporting students in finding suitable accommodations, ensuring a secure living environment for all. By prioritizing safety, sustainability, and inclusivity in its infrastructure and policies, the university contributes to creating cities and human settlements that are inclusive, resilient, and conducive to the well-being of all residents.

### Current Interventions

---

-  Provisions of housing, health and other policies.
-  Conservation of natural resources by adopting sustainable practice within the campus.

### Policy/Guidelines of the Institute

---

-  Community engagement is integral to campus greening efforts, with the university actively involving local residents in initiatives aimed at enhancing the greenery and overall environment of the region
-  Greening policy is implemented to promote sustainability and achieve the net-zero goals.

### Future Plans

---

-  Develop a actions plan to become a zero discharge campus.
-  Build a roadmap towards a climate resilient campus
