# ABOUT THE CONFERENCE

The 29th International Conference on Global Issues in Multidisciplinary Research for a Digital Future (29th FAI - ICGIMRDF 2025) will be organized by School of Basic Sciences, CSJM University Kanpur, India during 16th to 18th February 2025. This conference will feature a comprehensive technical program including several special sessions. The goal of ICGIMRDF 2025 is to provide an outstanding forum for academicians, researchers, practitioners, policymakers, and students to exchange ideas, techniques and tools, raise awareness, and share experiences related to all practical and theoretical aspects of digital future. ICGIMRDF 2025 focuses on issues and solutions involving global issues in multidisciplinary research for a digital future. Developments in the field of digital technology are very complex and advance rapidly as changes occur on day-to-day basis. It is very difficult to make it available to all stakeholders (researchers, academicians, students, industrialists and society). Hence, the objectives of the conference are: To provide a platform for stakeholders to meet and share ideas, views and new findings in the field of contemporary global issues related to digital future. To strengthen the relationship with FAI and CSJMU and, with the rest of the world. To provide a space for students and researchers to meet, discuss, and learn with experts in the related field. To promote a high level of interaction among stakeholders in theoretical, experimental, and applied concepts in the field digital future.
