About the Workshop

Idea and Genesis of this Workshop

The education landscape is undergoing a revolutionary transformation with the convergence of Artificial Intelligence (AI), immersive technologies, and digital pedagogy. The concept of **Pedagogy 5.0** transcends traditional teaching models and embraces AI-powered, student-centric, and future-ready approaches to teaching and research.

This workshop is conceptualized in response to the pressing need to **empower educators, researchers, and academic leaders** with the skills and mindsets required to thrive in an AI-enabled educational ecosystem. Recognizing the strategic importance of integrating AI tools, immersive learning platforms, and digital competencies in academic environments, this workshop aims to build capacities in **designing, implementing, and evaluating next-generation teaching-learning strategies**.

Learning Objectives of this Workshop

By the end of this workshop, participants will be able to:

- Understand the foundational concepts and implications of AI in education and pedagogy.
- Explore a range of AI-powered tools and digital platforms for content creation, student engagement, and assessment.
- Design and deliver AI-infused lesson plans and digitally enhanced academic presentations.
- Develop awareness and practical exposure to immersive technologies like AR/VR and gamified learning applications.
- Enhance their digital pedagogical skills and competencies to meet the demands of Education 4.0 and beyond.
- Engage in reflective practices and collaborative problem-solving using AI tools.

About Resource Person

Dr. K. Thiyagu

M.Sc., (Math)., M.Phil., M.Ed., M.Phil., M.Sc., (Psy).,
NET (Education), NET (Adult Education), DGT., PGDCSA., Ph.D.
Associate Professor, Department of Education,
School of Education & Training,
Central Univeristy of Karnataka,
Kadaganchi Village, Aland Taluka, Kalaburagi District,
Karnataka-585367, India.
