EVENT REPORT

On 31 January 2026, a guest lecture on the theme *Artificial Intelligence (AI) and Cyber Crime: New Challenges Before Law* was organised at Lecture Hall–1, Chhatrapati Shahu Ji Maharaj University, Kanpur, by the Atal Bihari Vajpayee School of Legal Studies. The programme witnessed the presence of faculty members, research scholars, and **225 law students**.

The event commenced at 12:00 PM with the arrival of the dignitaries, followed by the ceremonial lighting of the lamp. The invited guests were formally welcomed and felicitated with pots, shawls, and mementoes as a mark of respect. Thereafter, the welcome address was delivered by Dr. Shashikant Tripathi, Chief Proctor, CSJMU, who highlighted the growing importance of legal awareness in the digital era.

The lecture session included insightful addresses by cybercrime experts. **Shri Rajiv Kumar** explained the concept of *AI Voice Scam*, highlighting how artificial intelligence is used to mimic voices and create fake emergency situations to deceive victims.

Shri Subham Yadav elaborated on *WhatsApp Scam* and *Electricity Bill Scam*, cautioning students against sharing OTPs and responding to urgent payment messages from unknown sources.

Shri Arun Yadav focused on *Part-Time Job Scam*, *Chit Funds/Ponzi Scheme Scam*, and *Instant Loan Scam*, explaining how such schemes exploit individuals through false promises of easy money and financial benefits.

Ms. Riya addressed *Digital Arrest Scam*, *Dating App Scam*, and *Fake Gaming Apps*, highlighting how cybercriminals misuse identity, emotions, and malicious applications to commit fraud.

In addition to explaining these scams, the speakers also provided **practical cyber safety guidelines**, advising students to avoid clicking on unknown links, never share OTPs or passwords, verify suspicious communications, and download applications only from trusted sources.

The speakers also explained **preventive and response measures in case of cybercrime**, including contacting the National Cyber Crime Helpline **1930**, reporting complaints on **cybercrime.gov.in**, approaching the nearest cyber police station, and preserving digital evidence.

The session was further enriched by the chief guest, Shri Kapil Dev Singh, Additional Deputy Commissioner of Police, Police Commissionerate, Kanpur West, who delivered a special address on cybercrime investigation, digital vigilance, and the legal responsibilities of citizens in the digital space. He emphasized the importance of timely reporting and public awareness to effectively combat cyber offences.

An interactive question-and-answer session was held during the programme, during which students actively participated and raised queries on cybercrime reporting, digital evidence, legal remedies, and preventive measures.

The programme concluded with a vote of thanks proposed by Mr. Prerit Narayan Mishra, followed by the National Anthem. The guest lecture was informative, practical, and highly relevant, equipping students with both theoretical understanding and real-world awareness of emerging cyber threats and digital safety practices.
