

University Institute of Engineering and Technology

About The Institute

University Institute of Engineering and Technology was established in 1996 to impart quality education in Science, Engineering and Technology. The aim of the institute is to become an engineering/technology institute of national repute. The institute operates with academic autonomy and imparts state-of-the-art knowledge to the young generation. The institute is forging ahead to create successful engineers, scientists and professionals. The institute offers B.Tech program in (Chemical, Computer Science, Electronics and Communication, Mechanical, Material Science and Metallurgical Engineering & Information Technology), MCA, BCA, M.Sc (Bioinformatics, Electronics, Industrial Chemistry, Applied Mathematics) and Advanced PG Diploma in Bioinformatics. From the current session two new disciplines have been added to offer Diploma/Advanced Diploma/B.Voc. in Interior Design and Certificate/Diploma/Advanced Diploma/B.Voc. in Fashion Technology. A team of dynamic and dedicated faculty members work to nurture the students and raise the level of institute day by day passionately. Over the years modern infrastructure has been developed and our alumni can be found working all over the world in various academic institutions and industries.
